Very Flattering Testimonials from the Trade
all over the Country.

ZIRNGIEBEL NEW GIANT PANSIES

Huge Jewels of Velvet and Gold—Boston Transcript.

Are without question the most popular and profitable strains for florists. We are the only growers who have exhibited in the principal cities of the Union, carrying off first prizes wherever exhibited in competition. They are the largest as well as the showiest strains up to date. We have, as usual, tried every new strain offered, either here or in Europe, this season again, but we can assure the trade that they fall short of the mark. If well colored they are small, and if large the coloring is poor. The large demand for our Pansies, from the trade, from Canada to Oregon, is certainly a proof of their superior quality.

OUR GIANT MARKET

is truly the variety for the million, being of immense size and bright colors. We have greatly improved them, getting more variety of colors, especially in the lighter shades, 2,000 seeds. Also in separate colors, white, blue, yellow and black.

THE GIANT FANCY

we find it impossible to improve on. They are certainly the new plus ultra in pansies now, 600 seeds.

Trade packages of either variety at One Dollar each. Full directions "How to Grow Pansies" with each package. Also after August 1st plants for sale.

DENYS ZIRNGIEBEL, Needham, Mass.
